3 TO 6-YEAR-OLD PRE-PRIMARY GROUP

Children are being prepared for school, not only in the final preschool year, but from the moment they enter the 3 to 6 years class.

They arrive in the prepared environment ready to develop and perfect their abilities. Children learn best through real-life activities that support independence and develop concentration. It allows them to explore the world through their senses through touch and motion. Teachers guide students through the curriculum as they are ready for each new challenge, introducing lessons and then letting them practice what they have been introduced to.

Our curriculum covers the following areas which are also in compliance with the National Early Learning Development Standards (NELDS): Language, Mathematics and Activities of Daily Life (Life Skills.)

"Education should no longer be mostly imparting of knowledge, but must take a new path, seeking the release of human potentialities."

3 TOT 6 JAAR PRE-PRIMÈRE GROEP

Die kleuters arriveer in die voorbereide pre-primêre klas gereed om hulle vermoëns te ontwikkel en te slyp. Kinders leer die beste uit aktiwiteite uit die regte lewe waardeur hulle kan leer konsentreer en selfstandigheid kan ontwikkel. Sodoende verken en ontdek hulle die wêreld om hulle deur hulle sintuie deur aanraking en beweging.

Onderwyseresse begelei die kinders deur die kurrikulum. Opeenvolgende nuwe aktiwiteite word aangebied sodra hulle daarvoor gereed is; daarna kry hulle geleentheid om in te oefen wat hulle geleer het.

Ons kurrikulum dek die volgende areas wat voldoen aan die standaarde van die ELDA's (Early Learning and Development Areas): Taal, Wiskunde en Lewensvaardigheid.

"Never help a child with a task at which he feels he can succeed."
